Fersa Bearings | PFI Bearings | NKE BEARINGS | DELUX BEARINGS

Shaping the future of **Motion Technology**

FERSAGROUP

ENGLISH

Fersa Group

We have the perfect solution adapted to your needs

The group manufactures bearing solutions worldwide and specializes in industrial and automotive applications.

It is comprised of three brands: Fersa Bearings, NKE Bearings, PFI Bearings and Delux Bearings. Together, they have over 150 years of experience in the design, production and distribution of high quality bearings for diverse applications.

Fersa Bearings

On the road with you

Bearing solutions for the automotive market, specialized in commercial vehicles. We innovate to offer you the best original replacement.

PFI Bearings

We take you further

The best replacement for passenger cars with one of the most complete bearing catalogs for the automobile. The range includes some 2,500 part numbers for more than 125 brands and over 3,000 models to fit your needs.

NKE BEARINGS

Infinite possibilities

High precision bearings adapted to the highest European quality standards. Covers all industrial applications, including heavy industry, agricultural, energy, and railway mass transit.

DELUX BEARINGS SINCE 1956 INSPIRING EVERY MOVEMENT

Inspiring every movement

High quality solutions for automotive driveline applications, offering a complete range of pneumatic and hydraulic actuators, clutch release systems, and tailored bearing solutions for heavy-duty and light-duty commercial vehicles and passenger car.

Our History

The origins of a group with a long background

1968

In Zaragoza (Spain), two family bearing companies merge, creating **Fersa.**

1996

NKE Bearings brand is founded, headquarters in Steyr, Austria.

2016

NKE and **Fersa** join together, giving rise to the **Fersa Group**.

2018

A&S Bearings is born and joins the rest of the group's brands.

2022

Fersa Group acquires 100 percent of PFI Bearings.

Global Presence

In the right place at the right time.
Local presence in more than

100 countries

Our figures

Fersa Group is constantly growing

20% of sales based on the development of new part numbers.

X2
Sales in the last 5 years

4,5%

Work streams

Different needs
same commitment

We accept all the challenges and adapt to the needs of various markets.

Mobility

THE ORIGINAL
AUTOMOTIVE SPARE PARTS

Heavy Commercial Vehicles · Passenger car · Bus · Trailer · Light commercial vehicle · Vans · Pick Ups

Energy and raw material

THE PERFECT DESIGN FOR THE
MOST EXTREME CONDITIONS

Wind energy · Mining · Cement plants · Metallurgy · Paper and cellulose · Wood industry

Off Highway

LAND, SEA AND AIR

Construction machinery · Aerospace industry · Marine · Railway · Logistics · Airports · Tractors · Combines

Industrial

INDUSTRY ENGINE

Drive Technology · Production Machinery · Food Industry · Textile · Robotics · White goods appliances · Medicine · Tools

From original equipment to replacement parts

Trusted by the World´s Leading OEMs

ABB · DAIMLER · DANA · EATON · Envision · FAW · JOHN DEERE · KAMAZ · LEMKEN · MAN · MAZ · MERITOR · SAIC · SIEMENS · ZF

* **2 million trucks** drive with Fersa bearings in differential and wheel end applications.

* **7,500 MW** installed power in **4,000 windmills** equipped with NKE bearings.

Innovation & Quality

We Make the Difference

Through partnerships with other agents, we bring disruptive change and innovation to the components industry. As a result, we offer premium bearings to our customers.

Product

- Integration
- Improved efficiency
- Digitization and connectivity
- Adapted to the electric future
- Hi-Pro / Moss / Hybrid

Manufacturing

- Automation
- Smart manufacturing
- Measurement of more than 20 variables
- Tests in-house
- In-house advanced technology
- Leading machinery

Information

- Total traceability of our products
- Digital twins
- Business Intelligence

Shared knowledge

We take our know-how wherever we go

We provide expertise to our partners that allows us both to grow together our respective companies.

Work with Suppliers

We select our raw materials carefully. We ensure procedures based on transparency with our engineers at the facilities.

Research Network

Our engineering centers lead the Bearing Excellence Network together with other international research entities.

International programs

We collaborate with several European projects to improve the production process.

Corporate Culture

At the heart of
everything we do

Passion

Passionate about
customer satisfaction.

Connection

Connected with our
environment, we look for
synergies that make us stronger.

New challenges

Always looking for new
challenges, we are not afraid
to fly high.

New ideas

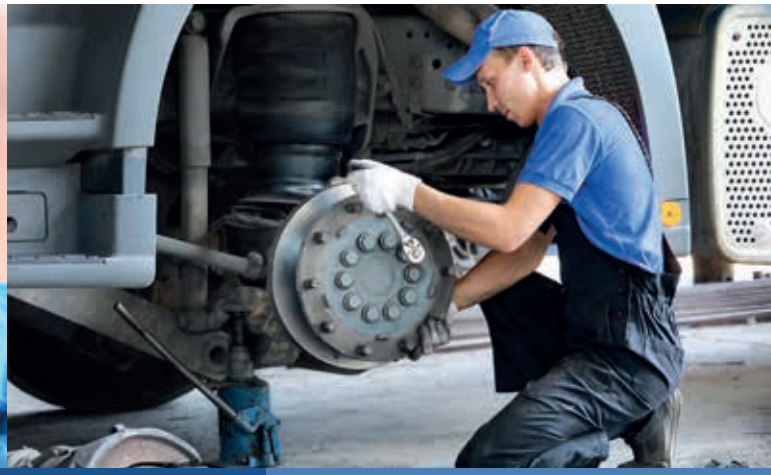
We are curious. We experiment, and we
always look for the best alternative.

FERSACARE

Full service for the mechanic

We take our experience with OEMs to the workshops. We adapt to the needs of the market and offer a quality service.

We fully trust our bearings. We put at your disposal all the necessary resources to extend their useful life and guarantee optimal bearing performance.



Fersa developed tools

We design our own tools, adapted to the needs of the mechanics and their resources.

Academy on the road

We offer technical training to mechanics to ensure the best replacement using our products.

Expert technicians

Our team of experienced professionals supports our customers across different sectors.
