

A photograph of a wind turbine farm at sunset. The sky is a mix of orange, yellow, and grey, with the sun low on the horizon. Several white wind turbines are visible, with the one in the foreground being the most prominent. The turbines are situated on a green, rolling landscape.

REMOTE CONDITION MONITORING SYSTEM

FERSAGROUP

Shaping the future of motion technology

A monitoring system for wind and industrial applications that allows you to capture working conditions data in real time.

NKE Remote Condition Monitoring System

Sensing capsule + Gateway (4G/WiFi/Wlan)

- IP67
- 5 year battery life (sampling 1s/h)
- Monitor Frequency, acceleration, temperature of virtually any rotating application
- Cloud based platform
- Plug & play: installation <10min
- Sync up to 24 sensors simultaneously
- Installation by magnet / adhesive / screw

NKE Remote Condition Monitoring System

Stand-Alone Solution

- IP67
- 5 year battery life (sampling 1s/h)
- Monitor Frequency, acceleration, temperature, sound, humidity & speed of virtually any rotating application
- Cloud based platform
- Plug & play: installation <10min
- Unlimited number of sensors synced
- Fully standalone solution (4G, WiFi, LoRa)
- Installation by magnet / adhesive / screw
